

**2011 IEEE Workshop on
Biometric Measurements
and Systems
for Security and Medical
Applications**

Milan, Italy, 28 September 2011

*Sponsored by the IEEE Italy Section Biometrics Council Chapter
Organized by Università degli Studi di Milano, Italy*

Honorary Chair

Anil Jain, Michigan State University, USA

Massimo Tistarelli, Università di Sassari, Italy

General Chairs

Emilio Mordini, Centre for Science, Society and Citizenship, Italy

Vincenzo Piuri, Università degli Studi di Milano, Italy

Program Chair

Fabio Scotti, Università degli Studi di Milano, Italy

Publication Chair

Angelo Genovese, Università degli Studi di Milano, Italy

Publicity Chair

Ruggero Donida Labati, Università degli Studi di Milano, Italy

Local Arrangement Chair

Ravi Jhawar, Università degli Studi di Milano, Italy

Program Committee

Patrizio Campisi, Università di Roma 3, Italy

Alberto del Bimbo, University of Florence, Italy

Vincenzo Di Lecce, Politecnico di Bari, Italy

Enrico Grosso, Università di Sassari, Italy

Davide Maltoni, University of Bologna, Italy

Sebastien Marcel, Idiap Research Institute, Switzerland

Michele Nappi, Università degli Studi di Salerno, Italy

Javier Ortega Garcia, Universidad Autónoma de Madrid, Spain

Marco Parvis, Politecnico di Torino, Italy

Kostas Plataniotis, University of Toronto, Canada

Fabio Roli, Università degli Studi di Cagliari, Italy

Arun Ross, West Virginia University, USA

Bulent Sankur, Bogazici University, Turkey

Gabriella Sanniti di Baja, CNR, Italy

Carlo Sansone, University of Naples Federico II, Italy

Roberto Sassi, Università degli Studi di Milano, Italy

Mario Savastano, CNR, Italy

Marios Savvides, Carnegie Mellon University, USA

Raimondo Schettini, University of Milano Bicocca, Italy

Tieniu Tan, Chinese Academy of Sciences, China

Stefano Tubaro, Politecnico di Milano, Italy

CALL FOR PAPERS

The use of biometric measurements is acquiring paramount importance in many security and medical applications, not only from the theoretical point of view but also from the industrial perspective and practice.

This workshop aims to present and discuss various technological, methodological and application issues in these areas, especially concerning, but not limited to, advanced sensors, signal/image processing techniques, pattern recognition approaches, systems and applications.

Papers are solicited on all aspects of biometric theory and practice in biometric-based measurements and systems, specifically for security and medical applications.

SUBMIT EXTENDED ABSTRACTS OR DRAFT PAPERS

BY 1 JUNE 2011

Details for the submission and all information concerning the symposium can be found at the symposium web site at <http://bioms2011.dti.unimi.it/>. Acceptance/rejection will be emailed by 15 July 2011. The final manuscript is due by 15 August 2011. Papers will be included in the proceedings only if at least one author will register by 15 August 2011 - no exceptions.
